

DELTA DENTAL  
ACADEMY

## INTRODUCTION TO CONE BEAM CT

A practical course covering the basic elements of CBCT. Radiation protection, CBCT software, dose optimisation and many other practical tips.

**Speakers: John Anderton & Graham Hart**

**Venue: Queen Square Dental & Implant Clinic, Bristol**

**Date: Saturday 9th February 2019**

A full day programme covering an introduction on current guidelines for CBCT with information and advice on correct patient positioning, volume selection, implant planning software and reporting.

This course is designed for all dentists and dental care professionals who prescribe and use CBCT scans for their patients. In addition to the theoretical elements there will also be a practical and interactive elements.

# INTRODUCTION TO CONE BEAM CT

## COURSE AIMS

### Learn:

- ▶ The basic principles of CBCT and using CBCT software for planning.
- ▶ Principles of Radiation dose and risk in CBCT.
- ▶ Dose optimisation by volume, resolution selection and patient positioning.

### Interactive Elements:

- ▶ Using CBCT software for planning.
- ▶ Taking anatomical measurements and nerve mapping.
- ▶ Implant planning and stent design.
- ▶ Exporting /importing images and combining 3D datasets

## LEARNING OUTCOMES

- ▶ To be confident prescribing and taking CBCT images and selecting the correct volume and resolution to meet the clinical needs but keeping the dose to a minimum.
- ▶ Know the radiation risks involved for patients and operators.
- ▶ Be able to use CBCT software to plan a case and combine datasets for more complex cases.

**COURSE PRICE:**  
£295 /dentist

**COURSE DATE:**  
9th February 2019  
9:00am - 4:00pm

**DURATION & CPD:**  
1 DAY (6 HOURS CPD)

**SPEAKERS:**  
John Anderton  
Graham Hart
